Projects

1. ErbilianWay - DEMO

*Collaborated with **Jiasaz** Company on this project*

ErbilianWay, founded in 2016, is a renowned travel company. As part of the *Jiasaz Company team*, I helped create their captivating website frontend, highlighting their exceptional travel services.

- **Technologies**: [VueJs ,Bootsrap, Laravel]

2. LinkPlus - DEMO | CODE

Full Time work on this project

LinkPluse is a social media platform designed to connect professionals and businesses, helping them to network and find job opportunities. Users can create a profile that highlights their professional experience, education, and skills

- ***Technologies***: [NextJs ,ReduxToolkit, TailwindCss , Firebase]

3. AviBooks - DEMO | CODE

A web application for those who love books

- **Technologies**:[React Js , TailwindCss , Firebase, Google book API]

Soft Skill

- Creative thinking
- Problem solving
- Ability to work under pressure
- Communication
- Multi-tasking
- TeamWork

About Me

I am a skilled front-end developer with 3 years of experience in building responsive and accessible websites and applications. With a deep understanding of HTML, CSS, and JavaScript, I am constantly striving to stay up-to-date with the latest web technologies and trends. My expertise in front-end frameworks such as **React** has allowed me to develop robust and scalable applications that meet the needs of clients and end-users alike.

Currently, I'm excited to broaden my skillset and delve into the world of **backend** development. I'm enrolled in a **meta** course focused on backend technologies, where I aim to gain proficiency in **server-side** programming, working with **databases**, and building **APIs**. My goal is to become a well-rounded **full-stack** developer, combining both front-end and back-end knowledge to create even more sophisticated and innovative web applications

Technical Skills

HTML   CSS   JavaScript   React Js

Next Js   Bootsrap   TailwindCss   Sass

Redux Toolkit   TypeScript   Figma

Git   Github   Firebase   Python

Education

Backend Web Development - Meta

Jun 3, 2023 -Continuing

Enrolled in Meta's Backend Web Developing course. Gaining essential skills like:

- * **Python** programming for machine learning, data science, and AI.*
- *In-demand programming skills and **problem-solving** with code.*
- *Version control using **Git** and **GitHub**.*
- *Working with **databases** using **MySQL** and crafting **SQL** queries.*
- *Building web applications with the **Django** framework.*
- *Preparing for technical **interviews** for back-end developer roles.*

Introduction to UI/UX Design - Re:Coded

May 31, 2023 -Jun 20, 2023

Completed Recoded's "Introduction to UI/UX Design" certificate. Proficient in UI/UX principles, user research, wireframing, prototyping, and user testing. Dedicated to creating intuitive, user-centric designs.

Software Engineering/Koya University

Nov 2020 – Jun 2024

- *BSc Degree in Software Engineering.*
